RESEARCH GAP

- masalah yang belum terjawab oleh studi atau penelitian terdahulu pada topik yang akan diteliti.
- Celah penelitian terdahulu yang belum terjawab dengan memuaskan.
 - Tahun atau aturan beda
 - Konsep beda
 - Pendekatan beda, dll

FUNGSI/KEGUNAAN

Novelty/Kebaruan Penelitian

NOVELTY / KEBARUAN / NILAI TAMBAH RISET

→ Apa hal baru yang saudara tawarkan dalam penelitian yang dilakukan?

→ Nilai tambah apa yang diberikan untuk penelitian sebelumnya?

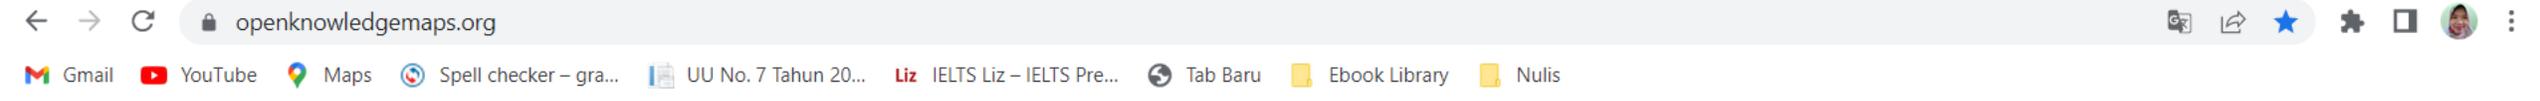

→ Caranya:

→ **Literature review**

→ **Research gap**

- membandingkan dengan riset yang dilakukan oleh orang lain
- menunjukkan hal-hal baru dari riset yang akan dilakukan belum pernah dilakukan peneliti sebelumnya

War and the environment: International law and the protection of the environment in relation to **armed conflict** - introduction to the special issue (2013)

Rosemary Rayfuse
Nordic Journal of International Law; 82(1), pp 1-5 (2013); ISSN: 0902-7351
 [link]: <https://lup.lub.lu.se/record/3562760>

Protection of the environment in times of **armed conflict** has traditionally been viewed through the lens of the laws of **armed conflict** or international humanitarian law. However, protection of the environment in relation to **armed conflict** encompasses consideration of other areas of la...

Armed Conflict and the Environment: Perspectives from African Union Law (2020-12-15)

C Kentaro, W Scholtz
South African Yearbook of International Law; Vol. 39 (2014); 1 - 26; 2521-2583; 0379-8895
 [link]: <https://unisapressjournals.co.za/index.php/SAYIL/article/view/8865>

During **armed conflict** the environment suffers both as a result of deliberate damage as a strategy of war, as well as through collateral harm. The intersection between the jus in bello (international humanitarian law) ('IHL') and international **environmental law** ('IEL'), with th...
